Detailed Selling Lead Description

You have a powerful Chinese manufacturing company. You desire to expand your business by exporting products into US and EU markets. You know the highest profits would come from selling your own brands in volume. But you have limited ability to create compelling new products that will be popular in the most profitable markets.

We have the solution. We are an American company that provides design services for products you can export with confidence. Solid Advantage creates winning designs that have strong appeal in American and European cultures.

Contact us today, because our design services can provide popular products to manufacture and sell. Your own brands can be tailored to the most lucrative markets, and also to your powerful manufacturing technologies.
